WHILE YOU ARE AWAY: PREPARING THE HOME

- ☐ Arrange for child, pet, and plant care; communicate needs and schedules.

PACKING FOR THE TRIP

Travel Restrictions

China still retains its tight border restrictions in 2022. Currently, foreign travelers may enter China for work or humanitarian reasons. Quarantine at a designated site is required depending on different cities' policies. Read on to know more about 2022 China travel restrictions.

According to the latest policy by the Ministry of Foreign Affairs and National Immigration Administration of China, a small group of foreign nationals is allowed to enter the country.

In order to reduce cross-border transmission of COVID-19, China has temporarily suspended entry by foreign nationals holding valid visas issued before March 28th, 2020. But three groups of foreigners can enter China at this moment:

Foreigners who hold one of the three categories of valid Chinese residence permits for work, reunion, and personal matters.

Foreigners holding Chinese diplomatic, service, courtesy, or C visa.

Foreigners holding a new China visa (issued after March 28, 2020) only for work or humanitarian needs, such as visiting a seriously ill family member.

Restrictions on movement and quarantine arrangements sometimes remain for travel between different provinces of China. Each city has slightly different requirements. For example, some cities and provinces need travelers from high-risk and medium-risk areas to take nucleic acid and IgM anti-body tests and undergo 5 days of isolation in their residence or in centralized observation.
